

Sprite

```

when clicked
  wait 1 secs
  repeat 10
    ask What's your name? and wait
  
```

A script or stack of blocks which control the sprite

```

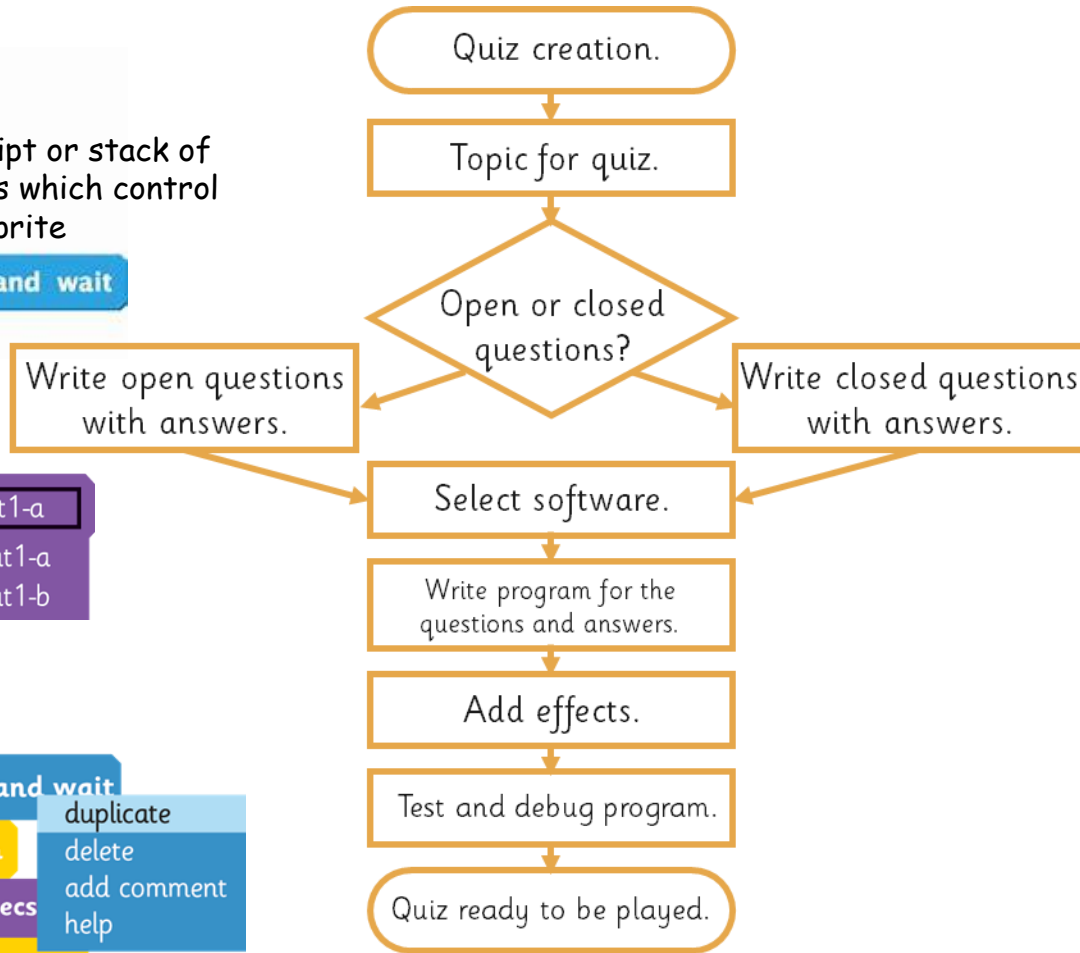

switch costume to
  cat1-a
  cat1-a
  cat1-b
  
```

```

ask what is double 17? and wait
if answer = 34 then
  say Correct for 2 secs
else
  say Wrong for 2 secs
  
```

Scratch: Questions and Quizzes

Flowchart

Vocabulary	Definitions
algorithm	a process or set of rules to be followed
debug	To find and remove errors from a computer program.
flowchart	a diagram that shows step-by-step progression through a procedure or system especially using connecting lines and a set of conventional symbols
script	A script is a collection or stack of blocks that all interlock with one another. The blocks and their order are very important, as they determine how sprites interact with each other and the backdrop
sprite	An object in Scratch which performs functions controlled by scripts
costume	This is what your sprite looks like and can be changed
program	provide (a computer or other machine) with coded instructions for the automatic performance of a task.
sequence	A sequence is a series of events that must be performed in order to achieve a task
duplicate	to copy and create another
variables	A variable is something that can be changed.
coding blocks	Blocks make up scripts, which make a project work
