

Summary of Priorities for 2021/22

- Further develop our curriculum intent, implementation and impact to ensure all children receive a good quality of education and that all enquiry based learning is embedded into our curriculum. Ensure subject leaders feel confident to lead a deep dive in their area in preparation for Ofsted.
- Develop our play provision which supports the development of our social, emotional, mental health and relationships curriculum.
- Maintain above average attainment and progress in reading, writing and maths.
- Continue to narrow the gap between all groups of learners, ensuring catch up resources are used effectively and there is a focus on the bottom 20%.
- Continue to develop vocabulary knowledge and oracy.
- Implement the new Early Years changes including baseline and profile requirements and ensure all curriculum areas have taken these changes into account.
