

## EBL Hippos - How has the use of The River Tyne changed over time?

To capture the children's interest, they took part in a workshop all about the River Tyne at the Discovery Museum.

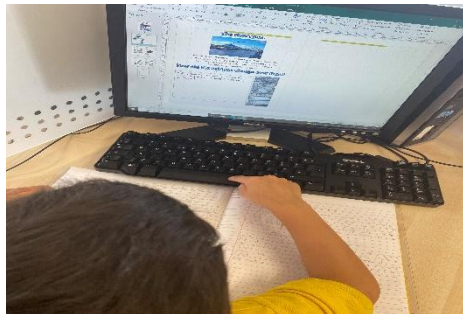

To be able to compare and contrast how the river use has changed over time, the children took part in a river walk.

Each week during EBL lessons, children have been provided with a range of sources to annotate and explore and think of what they wanted to find out.

Children then discussed what they wanted to discover and carried out research and shared their findings.

They then chose headings to create a leaflet and researched in even more depth their area to write about.

Each group produced a leaflet about what they had found out about how the use of the River Tyne has changed over time.
