

# **Year 1 Turtles**

## **Wheat story**

We explored the wheat fields at the farm. Farmer Thompson showed us the wheat and the seeds that come from the plant.

We explored the wheat field and Mr Thompson showed us how the wheat grows and how he takes care of it.

## Research

We used the computers in the ICT suite to research which food we can make with flour and recorded our findings.

We talked about some of the food that was made from wheat. The children identified times when they had tasted those foods. They discussed the food they liked and disliked.

## Bread making

We helped to make some bread. It was very hard to mix.

## Bread tasting

The Turtles enjoyed tasting the bread that they had made.
