Wednesday 17th May

Y5 children

Dear Parent/Carer,

Y5 children will start their preparations for SATs next year from now in school. Your child will be asked to attend **school from 8.10am from after half term**, to access the computer based programmes in our computer suite, they should come in via the hall. They will also be given a tuition slot which is normally after school. Children will also be given extra homework too.

If your child is chosen for tuition they will receive a letter from the teacher who is doing it about when it is. You should receive this letter in the next few days.

SATs week next year starts **Monday 13th May 2024** and all children **must** be in school as tests have to happen on certain days.

The final year at primary school is a very important year and we do everything we can to support children and parents through it and ensure the children are as prepared as possible.

We appreciate parents' support with preparation for SATs and further information will be sent to you during the year and there will be opportunities to attend meetings too.

Warmest Regards

Mrs Robson
Headteacher
