

What were the greatest achievements of Ancient Egypt?

Y6 Zebras – Summer 2026

During our history lessons this term, we have been learning about Ancient Egypt. We were given the question, 'What Were The Greatest Achievements of Ancient Egypt?' for our enquiry based learning.

In our history lessons, we have learned about

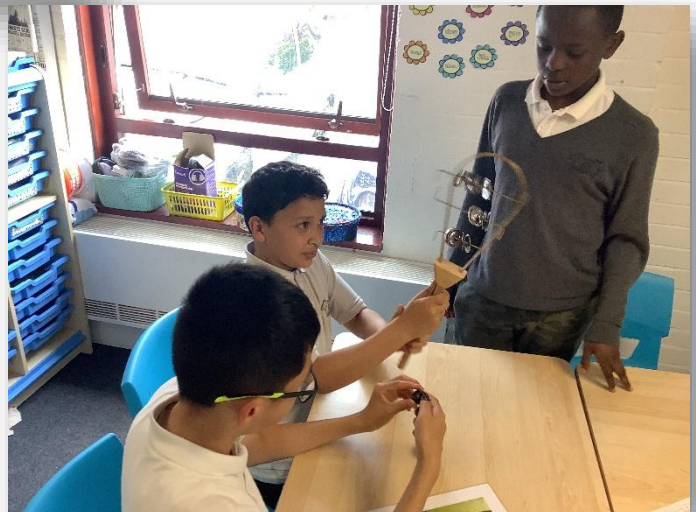

Ancient Egyptian society, Gods, Goddesses, and the role of a Pharaoh.

We started our topic looking at Ancient Egyptian

artefacts to help us to start thinking about ancient objects and what they were used for and the significance of them.

We played with Ancient Egyptian games, coded hieroglyphics and

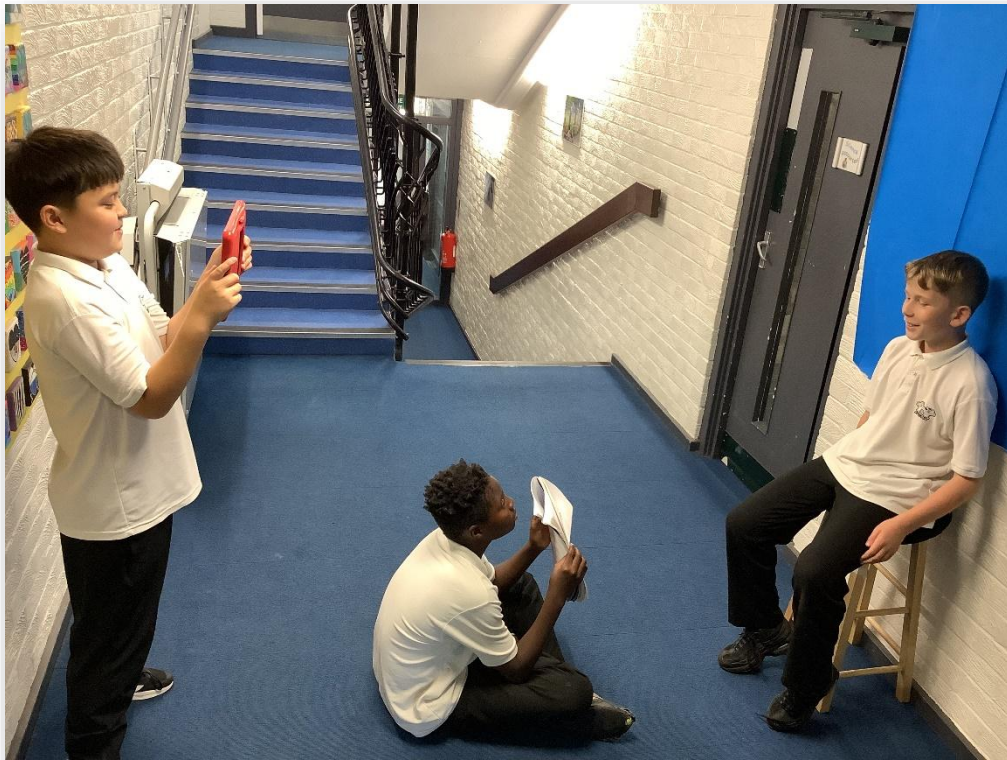

examined some suspect tools...one included the device used in mummification!

We created videos using the green screen to make a documentary style video.

In our videos, we discussed the knowledge that we had learned in our history lessons and then answered the question, 'What Were The Greatest Achievements of Ancient Egypt?'.

Most of us said the pyramids of the engineering of the structures and that they were important because they were the tombs

of the Pharaohs. We enjoyed watching our videos on the big screen too!
